

*A world apart,  
just minutes away.*

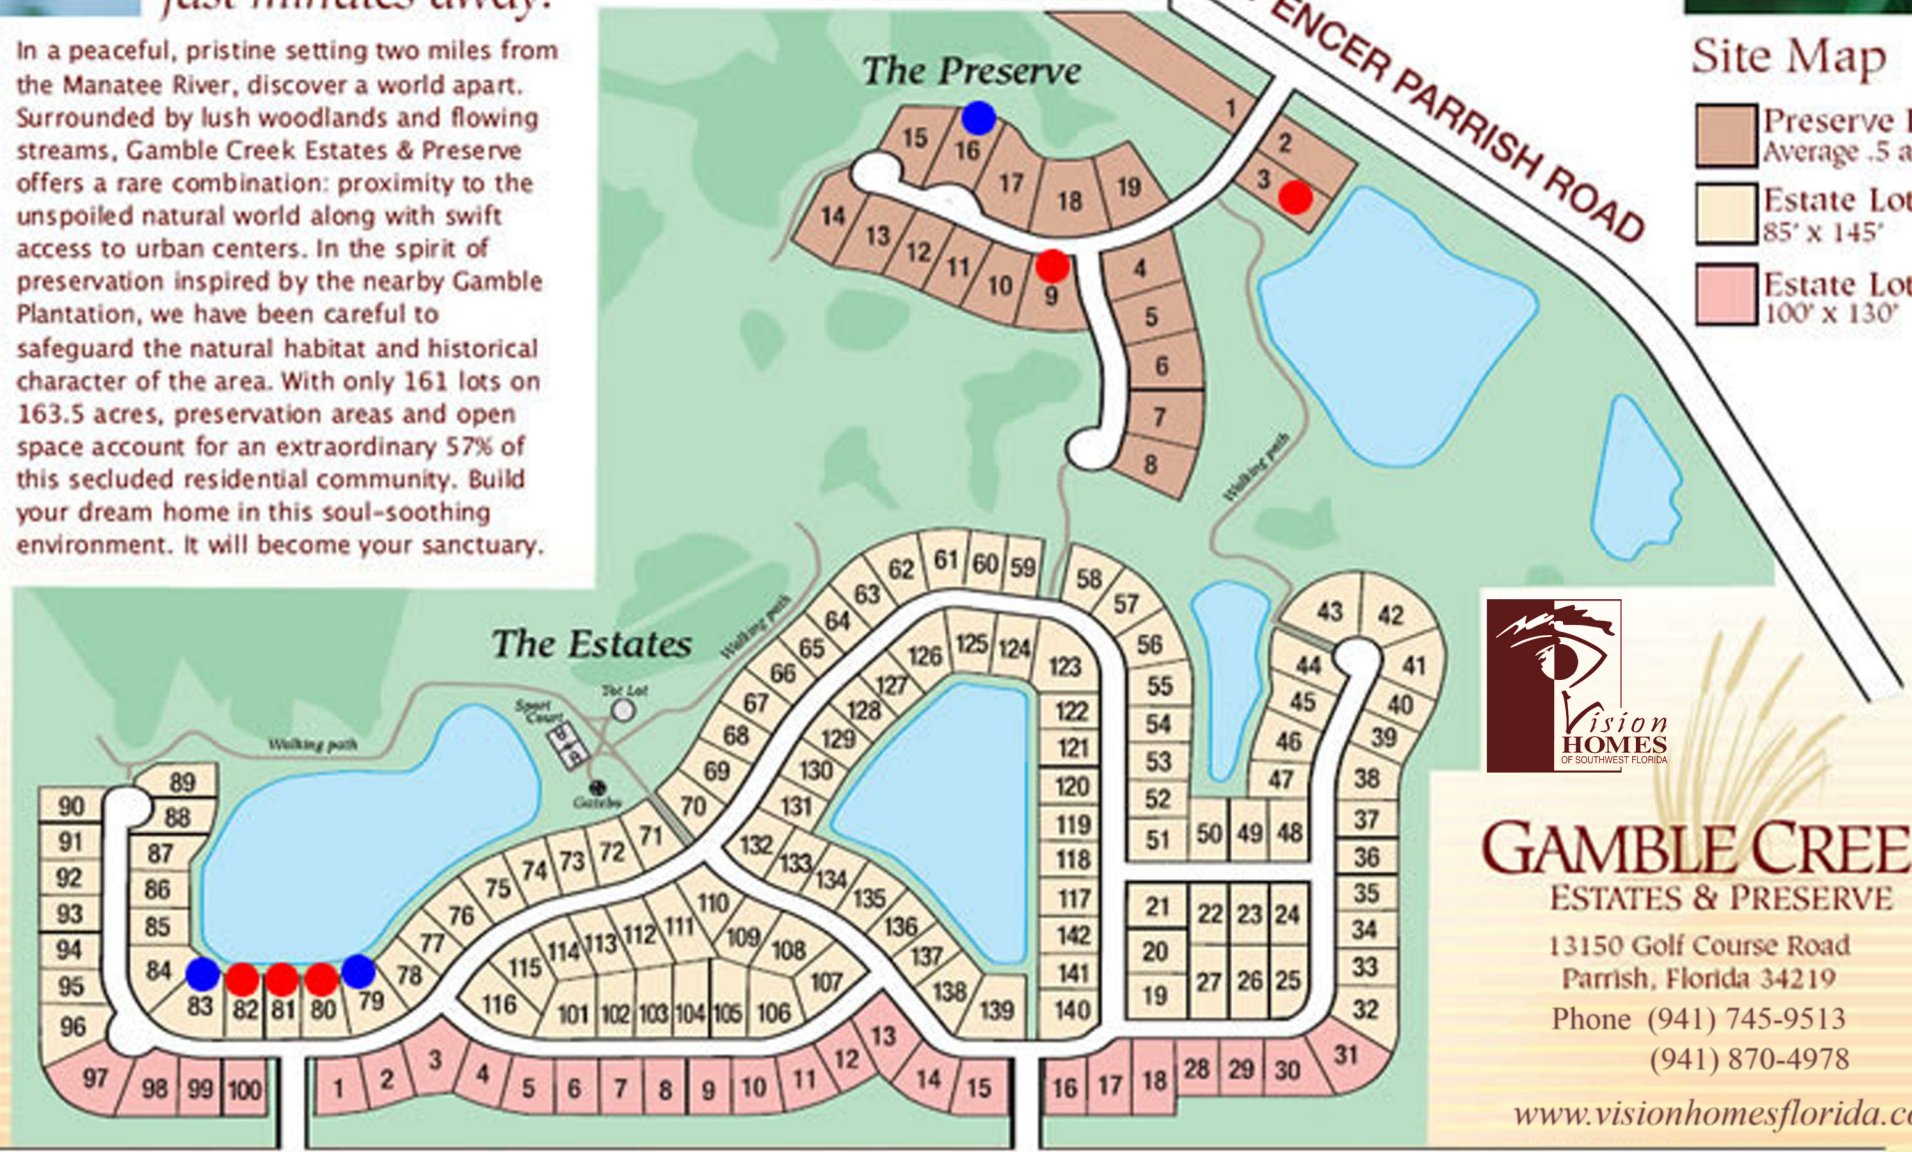

In a peaceful, pristine setting two miles from the Manatee River, discover a world apart. Surrounded by lush woodlands and flowing streams, Gamble Creek Estates & Preserve offers a rare combination: proximity to the unspoiled natural world along with swift access to urban centers. In the spirit of preservation inspired by the nearby Gamble Plantation, we have been careful to safeguard the natural habitat and historical character of the area. With only 161 lots on 163.5 acres, preservation areas and open space account for an extraordinary 57% of this secluded residential community. Build your dream home in this soul-soothing environment. It will become your sanctuary.
